Call For Papers

Conference Overview

Looking at the importance of the smart grid and renewable energy resources integration in the existing power systems, this conference is planned to further explore the viability of various related technologies. SGRE 2024 is the 4th International Conference on Smart Grid and Renewable Energy, focusing on contemporary industry topics ranging from smart grid, renewable energy, power electronics, controls, manufacturing, communications and computational intelligence. Join us for the wealth of world's industry, researchers, and academic presentations, tutorials, special session, and exhibits and enjoy the wonderful city of Doha — the pearl of Arabian Gulf known for its beauty, history and hospitality.

Regular Sessions

The technical topics for the regular sessions include, but are not limited to the topics under the following topics:

- Smart Grid Technologies and Applications
- Renewable Energy and Energy Storage Systems
- Power Generation, Transmission and Distribution
- Transportation Electrification and Automotive Technologies
- Power Electronics and Applications
- Cyber Physical Systems and Internet of Things in Smart Grid

Special Sessions

The conference will include Special Sessions on highly specialized topic areas reporting technical trends and breakthroughs within the scope of the conference.

Special Sessions are organized at the initiative of one or more individuals, who must adhere to specific procedures published on the conference website.

Student & Young Professionals Activities Program: The forum offers activities and opportunities for engineering students and recent graduates (young professionals) to present their R&D work in Industrial Electronics, and to help them develop networking connections. See more information on IES electronics channels.

Paper Submission

Prospective authors are invited to electronically submit full papers in English, 6 pages, in pdf format following instructions accessible via www.sgre-qa.org. Accepted and presented papers will be submitted for inclusion in the IEEE Xplore online digital library database. In addition, authors of selected papers may be called upon to resubmit extended versions of their papers or consideration of publication in the top of the IEEE Transactions.

Venue

The conference will be held at Sheraton Grand Doha, which is located in the heart of the city. Its location makes possible to visit the city by walking.
